Subject: Pavillion Work Group Composition and BLM Representation Update

Good Afternoon Greg:

I wanted to touch base and let you and the rest of the Pavillion Working Group know that I am replacing Jon Kaminsky as the BLM representative on the work group. Jon has left federal government service and taken a job with industry.

Please update your contact list and add me to any notification list/channels that the work group maintains.

I would also appreciate it if you would have someone forward the current contact information for the work group members and current schedule of planned meetings.

Given the departure of Tom Doll and John Corra, who is the current leader of the Working Group?

I see that BLM was tasked to address jurisdiction questions or do an analysis of jurisdiction in the area of review. Could you please clarify what this means? What the expectation is or desired products?

Additionally, I have been tasked to prepare a routine briefing for our congressional delegation staff on the status of the Pavillion issue. Please give this some thought and share any observations, insights or useful facts about the issue, next steps, and/or how well the Work Group effort is progressing.

I look forward to joining the group and participating in its efforts to resolve a challenging geotechnical question.

Please do not hesitate to contact me if I may provide additional information or comment.

Thank You,

Karl

Karl S. Osvald, Senior Geologist,

US Department of Interior/Bureau of Land Management
Wyoming State Office Reservoir Management Group(WSO-924)
2987 Prospector Drive
Casper WY 82604

ph: 307-261-7729
